

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 23 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Fog in south tonight, rain and stronger winds in northwest.

This Evening and Tonight:

Variable cloud and clear spells, allowing a frost in places, and also some fog, locally dense, forming across southern areas. Windier in the northwest with a band of rain moving south-east across Scotland and Northern Ireland followed by showers later.

Wednesday:

Fog clearing slowly from the south. Cloud and rain sinking south across Wales and northern and western England. Sunny intervals and blustery showers in north. Gales far north.

Outlook for Thursday to Saturday:

Fine for many on Thursday then turning very unsettled from the north Friday and Saturday with rain, some hill snow accompanied by very strong winds, gales or severe gales possible.
